OCTOBER 2005

VOLUME 31 #1

**General Meeting
Thursday, October 20, 2005
At Tradition**

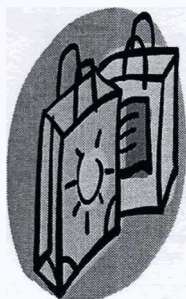

4920 Loring Drive Haverhill Road, West Palm Beach
(Tradition is a new senior residence located just north of Morse Geriatric Center).

**Meet with representatives of FACTS
Families Against Court Travesties, Inc.**
Adele Guadalupe, Director & Lisa Macci, Attorney-at-law

FACTS was formed by the South Palm Beach County Chapter of NOW (National Organization for Women) to help fight the injustices being perpetrated against children and parents in Family Courts. These courts often deny children and parents their constitutional right to visitation and communication with one another, once custody has been determined. So many families are being torn apart by decisions of these courts.

The goal of FACTS is to promote awareness, change legislation, hold courts accountable for their actions and bring the focus of Family Court back to the best interests of the children of divorce who need both loving parents!

Be there to hear this stimulating and eye-opening account of families in crises!
